Summary of progress2succeed's Business Case

The vision of progress2succeed is:

“To maximise progression opportunities for work-based, non traditional vocational learners by offering enhanced, flexible, work-related educational opportunities, with benefits for learners, employers and the regional and national economy.”

progress2succeed aims to achieve this through 5 main objectives:

1. **To enhance progression and curriculum development** through coordinated curriculum planning
2. **To deliver new and effective modes of progression** through the development of progression routes
3. **To enhance capacity and information sharing** through staff development
4. **To strengthen communication, for and between learners, employers and providers, and to promote learning and progression opportunities** through the provision of effective advice and guidance provision
5. **To ensure the effective dissemination of information and to promote learning between the partners** through the development of meaningful tracking, evaluation and dissemination systems
